

**a1/make\_on\_queue.sh**

```
1  #!/bin/bash
2
3  ## Give the Job a descriptive name
4  #PBS -N makejob
5
6  ## Output and error files
7  #PBS -o makejob.out
8  #PBS -e makejob.err
9
10 ## How many machines should we get?
11 #PBS -l nodes=1
12
13 ## Start
14 ## Load appropriate module
15 module load openmp
16
17 ## Run make in the src folder (modify properly)
18 cd /home/parallel/parlab05/a1/
19 make
20
```
